

(C) REMARKS

It was noted in the "Notice of Drawing Inconsistency with Specification" mailed on March 1, 2006, that Figure 2(d) was not listed in the Brief Description of the Drawings in the specification. The purpose of the amendment is to correct that omission. Support for the added language is found in paragraph [0026] of the specification.

Respectfully submitted,

Date: March 7, 2006
